Name: _____

What is Pin Golf?

Pin Golf is a way to quickly play a pinball tournament that allows handicapping of players, so players of different skill levels can all play in the same tourney.

How do you play?

Everyone is given a Pin Golf score card, a pen or pencil, and assigned a handicap level (Novice, Average, or Pro) based on their experience.

Players should write their name and date on the top of the Pin Golf Score Sheet and circle their handicap level (Novice, Average, or Pro.).

For each nine-hole Pin Golf tourney, nine pinball machines are selected to represent the "holes." The target score for your handicap is listed on the score sheet.

Each machine in the tourney is played in any order. Scoring is based on when you reach your target score. If you reach the score on the first ball you score a "1," if it takes two balls, you score a "2;" three balls scores a "3." If you do not reach your target score, you score a "4."

Players must enter their actual score for each ball they play to be considered for final scoring. These scores are used in assigning player handicaps and adjusting target scores for future tourneys.

After you play nine "holes," you total the scores. As in real golf, the lowest score wins. In the case of a tie, there is a play-off.

Up to four players can play the same machine at the same time, but during a Pin Golf tourney it is courteous for players to simply "drain" (plunge, but not play) any balls they still have after they reach their target score.

Pin Golf

All games set to 3 balls. Players assigned handicap level to determine target scores. Play nine tables. On each table, write down point total for each ball, abandon game if complete target score. You score 1 if complete target score on 1st ball, 2 if on 2nd ball, 3 if on 3rd ball, circle 4 if not completed. Pro = initial replay value, Average is 50% of Pro. Novice is 25% of Pro. Add scores for nine tables. Lowest Score wins. Ties playoff.
